

88th GASG Meeting

“Materials For Gas Sensing”

Thursday, 20th June 2024

Bletchley Park and Online

The subject for the summer meeting will be 'Materials'. The date is 20th June 2024 and the venue is the conference facility at [Bletchley Park](#), the codebreaking heritage attraction, near Milton Keynes.

We aim to have presentations on many different materials of relevance to the sensor community, such as catalysts, filters, electrodes and semiconductor sensing elements. It is also hoped to include the characterisation of gas-solid interactions relevant to key detection processes.

Attendees will additionally have the opportunity to visit the famous "Home of the Code-Breakers" museum during the lunch break.

Firm details of the programme and registration will be announced as soon as possible, so keep checking back for more updates!
