

Gas Analysis & Sensing Group – 96th Meeting

6th Early Career Researchers Forum – Call For Papers

Thursday, 11th March 2027

Crowcon Detection Instruments Ltd, Abingdon, OX14 4SD

GASG will be holding another of our popular series of 1-day meetings for Early Career Researchers in March 2027. We offer an opportunity to present short talks (up to 15 minutes, including questions) or present posters in the areas of sensing, analysis and monitoring of gases, volatile organic compounds (VOCs) and particles, including development of technology and its applications, standards and policy.

Presenters from academia, industry, government and all interested organisations are welcomed. Early Career Researchers will have a valuable opportunity to network with their peers and other experienced colleagues in the field. This is also an excellent opportunity for attendees to hear about the latest cutting-edge research.

The event will commence at around 10:30 with refreshments and registration. Talks will start by 11.00 and finish by 15:30, followed by prize presentations. Three prizes (£100, £50 and £25) will be given for the best presentations. Winners will be selected by GASG committee members at the meeting and are subject to numbers of entries. In addition, the top award winner will be eligible for free attendance at the next GASG meeting.

There will be a plenary lecture from a distinguished invited guest speaker and attendees will be able to view posters and discuss them with the presenters during the lunch break. There will be ample opportunities for networking and informal discussions regarding employment prospects in the gas detection field with GASG members from a wide range of organisations. Our generous hosts, Crowcon Detection Instruments Ltd, will provide a short tour of their manufacturing facilities (subject to operational requirements). This is a rare opportunity to see UK manufacturing in action.

We are now accepting submissions for talks and posters. Please use the Speaker Form below to express your interest. More information about GASG is available at www.gasg.info.

This Forum is expected to be popular! Early registration is advised.

Costs per attendee

Speakers & poster presenters (includes FREE 1 additional attendee from same organisation)	£65
GASG member	£100
GASG corporate member (up to 2 places)	FREE
Non-member	£200
